CHECKLIST DESIGN

Design Best Practices

The image shows a mobile application interface. At the top, a blue header bar contains a white checkmark icon and the text "Checklist Design". Below this is a white navigation bar with three dots on the left. The main content area has a light gray background. At the top of the content area, there is a section titled "Pages" in dark blue text. Below this, a smaller text block reads: "Each page lists the necessary features to fulfil a user's needs. There's also some optional additions, a few helpful articles and some great examples!" To the right of this text, a large, semi-transparent white circle contains a thick pink arrow pointing to the right. At the bottom of the screen, there is a horizontal row of six white cards, each containing an emoji and a corresponding text label: "Login" (key emoji), "Pricing" (dollar sign emoji), "404" (person emoji), "Onboarding" (top hat emoji), "Contact Us" (telephone emoji), and "Sign Up" (hand emoji). The entire interface is set against a dark blue background.
